

Using Family Sharing to Create a Student Apple ID

Requirements:

- A Guardians Apple ID
- A iOS device.
- The students school computer login details

If the students guardian does not have an iOS Device or Apple computer (iPhone, iPad, Macbook Pro, iMAC) then please refer to the “Create Student Apple ID On A Computer” documentation.

1. make sure you are signed into your iCloud on a iOS device

2. Click “Set Up Family Sharing”

3. Click “Get Started”

4. Click “Continue” or sign in with a different Apple ID if you do not wish for this Apple ID to be the organiser account.

5. Sign in again to share its purchases with the other family members and click “Next”

6. Click “Continue” regarding the credit card details. It is important to turn on “Ask To Buy” later on for the students account. Click “Managing Family Purchases” to learn more.

7. Choose to Share your location with your family.
Note: You will receive an email from Apple with more information about Family Sharing.

8. Click "Create an Apple ID for a Child"

Want to add a child who doesn't have an account? [Create an Apple ID for a child.](#)

9. Enter your child's birthday and tap Next. The birthday for a child's account can't be changed after the account is created. Be sure to enter the correct date.

The screenshot shows an iPhone interface for selecting a birthday. At the top, there are status icons for signal strength, Wi-Fi, and battery (100%), along with the time 9:41 AM. Navigation buttons for 'Back' and 'Next' are visible. The title 'Birthday' is centered, followed by the instruction: 'Your child's birthday will be used to determine appropriate services.' Below this is a table with the selected date '7/15/04'. A scrollable list of months and dates follows, with 'July 15 2004' highlighted.

Birthday 7/15/04		
April	12	2001
May	13	2002
June	14	2003
July	15	2004
August	16	2005
September	17	2006
October	18	2007

10. Review the Parent Privacy Disclosure and tap Agree.

11. Enter the security code for your credit card and tap Next. If you don't have a credit card on file, you'll need to add one.

12. Enter your child's name, tap Next,

13. Create their Apple ID using their school login details and tap Next.

The screenshot shows the 'Create Apple ID' screen. At the top left is a 'Child's Name' button with a back arrow, and at the top right is a 'Next' button. The main heading is 'Create Apple ID' in a large font. Below it is the text: 'The email address below will be the new Apple ID for your child.' At the bottom, the email address 'Email | hame@icloud.com' is displayed.

14. Follow the onscreen instructions to set a password , choose security questions, and set up your child's account.
Choose passwords and security questions that you both can remember. (record these details and keep them at home.

9:41 AM 100%

Question 2 of 3

Question [What is your favorite children's book?](#) >

Answer

Choose answers memorable to you so you can easily verify your identity when you make changes to your child's account.

15. Confirm that you wish to enable Ask To Buy, Hit "Next"

[Security Questions](#) [Next](#)

Ask To Buy

Ask To Buy

Require approval for all iTunes, iBooks, and App Store purchases initiated by Student. You will be responsible for all charges to your account.

16. Choose whether to share the student's location with your family members.

17. Agree to the terms and conditions prompt

18. The student's Apple ID is now setup and ready to be used.

To setup the student's device please refer to the **Setting up an iPad from out of the box** documentation.

Once the device is setup please refer to the **Setting up MobileIron** documentation, on how to setup and enrol in your school's Mobile Device management solution.

For more information regarding MobileIron and MDM's please refer to the **What is MobileIron** documentation.
